The Office of Mississippi Physician Workforce
Fortifying and Advancing a Strong Primary Care Foundation

GRADUATE MEDICAL EDUCATION (GME) TRAINING BY THE NUMBERS

Mississippi ranks 6th for percentage change in student enrollment at MD and DO schools.

**One Mission:** Created by the Mississippi State Legislature in 2012, the Office of Mississippi Physician Workforce (OMPW) develops strategies that attract, educate, and sustain a well-trained and appropriately distributed physician workforce in Mississippi, so as to ensure health care access for all Mississippians.

Each office-based physician supports a per-capital economic output of **$3.1 million** and supports an average of **17** jobs while paying **$1.4 million** in wages and benefits.

In **2012**, there were **12** first year ACGME training positions in the NRMP Match outside of UMMC. In **2022**, there are **121**.

Sources: 2018 AAMC Physician Workforce Profile, 2018 AMA Economic Impact Study, OMPW

There were **4** ACGME training sites in Mississippi in **2012**. In **2022**, there are **13** with **2** more in development.

Mississippi retains **77%** of medical graduates who complete both medical school and residency training within the state.
